The Scottish Highlanders' reputation as fierce warriors spread across the globe during the French & Indian War, American Revolution, and Napoleonic War, renowned to this day. Perhaps they were derived from the hardest of English stock, tempered by the blood of the early Viking invaders they repelled. Their conservative austerity is as legendary as their whiskey. They invented Golf, which became so popular that it was banned by the English King in 1320, because it was replacing archery practice, essential to national defense of that island nation.

Scottish Kilt Pins

Scottish Kilt Pins:

Early Kilts were fastened at the side by a large pin. Many represent a sword thrust through a stone, or a Celtic pattern. Three styles are shown, all with the Claymore sword. One has the famous Scottish thistle, the others have a "Targa Shield" with embossed designs in concentric rings. What do you find under the kilt? A Scotsman!

Kilt pins are cast solid pewter. Bright, they develop a satin patina over time. Shown actual size, two studs have retaining clasps at back.
