

John & Caleb Vincent of Ohio

Vincent ~ Ohio Rifle

by

John Bergmann

created from Track's best parts,
with a .40 caliber 7/8" octagon barrel.

An odd pewter overlay, visible behind the
breech, on the lock side, prevents damage
caused by repeated cap overspray. This clever
feature is found on many original Vincent rifles.

Ohio rifle makers John Vincent, and his son John Caleb Vincent, were famous for their slim halfstock Ohio rifles.

Prolific early Ohio gun makers, several Vincent rifles have survived to become treasured by collectors.

Typically stocked in curly maple and trimmed in brass, Vincent rifles were often decorated with silver inlays.

Surprisingly comfortable for offhand matches, you will like our Vincent rifle stock. The curved buttplate is an advantage when shooting off-hand, and this light rifle has modest recoil in .40 or .45 or even .50 caliber.

This project is a fairly easy to build, thanks to our refined stock pattern, which was perfected by Michael Hayes, and our many gunsmithing options to speed the barrel work.
