

Kit Carson's Hawken Rifle, left hand

This adjustable sight is a great choice for your Hawken rifle. It works well on 1" and 1-1/8" octagon barrels. Not a fixed iron sight, so it does not meet NMLRA Hawken match rules, but may be used in "adjustable sight matches". Alloy steel wax cast steel, blasted to a grey matte finish. Polish it bright or brown or blue it.

#RS-HA-5
adjustable Hawken style
rear sight
\$34.99

Kit Carson's Hawken rifle kit, left:

#Lock-JB-L	left lock, percussion, with stirrup and fly	\$ 92.99

#Stk-KC-16-L-W1	stock, left, black walnut	only \$220.00

Gunsmithing for Hawken Rifle kit:

Install breech plug, indexed, fitted snug inside.....	#Labor-BP
We fit the face of the plug snugly against the inside shoulder. Threads are lubricated with anti-seize, so gunsmith can remove plug later. Name is indexed to bottom flat.	
#Labor-BP	install breech plug only \$25.00
Mill dovetail slot, fit sight.....	#Labor-DS
We mill the dovetail slot and hand fit the sight, if purchased with the barrel. Slot is undersize if ordered separately, since no standards exist. We center the front sight 1-1/2" behind muzzle. We center the rear sight 8-1/2" ahead of breech. Or, clearly specify desired sight location.	
#Labor-DS	install fixed sight, mill dovetail, each only \$20.00
#Labor-RSHA	install long adjustable sight, dovetail only \$29.00
Install rib, using screws.....	#Labor-DT
#Labor-DT	tap blind hole for rib, per hole only \$20.00
#Screw-5-40-R	screw for underrib, 5-40, each only \$ 1.29
Solder rod pipe to rib.....	#Labor-RP
#Labor-RP	solder ramrod pipe to rib, each only \$20.00
