

**Triggerguard, wax cast brass or iron..... #TG-Fowl-SA-B or I**

Our *small acorn* triggerguard is smaller and more petite than our large acorn guard. The acorn later evolved into a pineapple finial.

- #TG-Fowl-SA-B triggerguard, wax cast brass **only \$33.99**
- #TG-Fowl-SA-I triggerguard, wax cast steel **only \$24.99**

**Triggerguard, wax cast brass or iron..... #TG-Fowl-D-B or I**

Our *Duncan* triggerguard was modelled after an original shown on a flint fowler marked *Ketland & Co.*, circa 1720-1750. See page 113 of *Colonial Frontier Guns* by T. M. Hamilton, available separately. This early flint fowling gun triggerguard has the "potted plant" or "flaming torch" finial. The small bow indicates that this guard was made for a single trigger. This is the English version of the French finial design known as the Type C trade gun triggerguard.

- #TG-Fowl-D-B triggerguard, wax cast brass **only \$33.99**
- #TG-Fowl-D-I triggerguard, wax cast steel **only \$24.99**

#TG-Fowl-SA-B or I  
brass **\$33.99**  
iron **\$24.99**
