Build your own guns!

Triggers by Pryor Mt. Bill Newton .................................................. #Book-T
Crisp line drawings illustrate triggers: plain, double, simple-set, single-set, and double-set, for Jaeger rifles, longrifles, plains rifles and Sharps rifles. Dimensions are given, so a clever craftsman can make his own triggers. Soft bound, with 8 pages of plan drawings.

#Book-T Triggers only $ 5.99

Firearms Blueing & Browning by R.H. Angier.............. #Book-FBB
This old text contains 230 formulae of chemical combinations to color gun metals. Complete instructions for the use of each process are included in this hard bound volume of 151 pages.

#Book-FBB Blueing and Browning only $19.99

Hand Rifling a Muzzle Loading Rifle Barrel at Home by Mark Wagner ........................................... #Book-HRMLBH
The author explains the theory of rifling and styles of grooves, building a suitable rifling bench, drilling, reaming, rifling, lapping, and breeching the barrel, proof testing and safety. The author also explains how to make a lapping rod to polish the rifled bore. Soft cover, 54 pages.

#Book-HRMLBH Hand Rifling at Home only $11.99

A Wooden Iowa Rifling Bench ......................... #Book-WIRB
Construction & Operation Manual by Steve Bookout and Alan Neubauer
Learn how to make a wooden rifling bench using normal tools found in the home workshop, from contructing the bench to making rifling rods. Also includes operation tips. Soft cover, 55 pages.

#Book-WIRB Rifling Bench Construction & Operation only $19.99

Checkering and Carving of Gunstocks .................... #Book-CCG by Monte Kennedy
This book features full-size line drawings of modern and traditional style checkering and carving patterns contributed by America's leading stock makers, plus tools and techniques. Hard cover, with 352 pages.

#Book-CCG Checkering & Carving only $34.99

The Gunsmith of Grenville County ...................... #Book-GGC by Peter Alexander
Written for both the novice, and the master gun builder, the author explains the basics of each task, and then he delves into the minutia of the interesting variations. Inletting, shaping, sculpting, tuning, polishing and fitting parts is the main topic of the text and photos. Only hands-on work at the bench will get you closer to longrifles building, than this instruction manual.
Wire bound, with 394 pages, this big 8-1/2 x 11” format book will lay flat on your bench top, as you earn while you learn. Study each topic, and put your knowledge to work, as you cut, shape and finish each step, with the author.

#Book-GGC Gunsmith of Grenville County only $39.99
