# Gun maker's manuals, by Kit Ravenshear

The late Kit Ravenshear created these gunsmithing manuals to share his workshop knowledge and experience acquired during his 50 years of practice. These 7-1/2 x 8-1/2" soft cover booklets of about 20 pages are aimed at the innovative craftsman. Mr. Ravenshear shows that you don't need highly technical equipment. His techniques are amazingly simple, easy to learn, very effective to use.

**Simplified V-Springs ..... #Book-SVS**

This booklet explains the secrets of making V-springs the easy way. Buying the right steel, with wide temper tolerance, will allow you to make a good springs despite home tempering. Learn to shape mainsprings, frizzen springs and sear springs.

Mr. Ravenshear proves that broken V-springs can be altered, repaired, welded, replicated, and salvaged.

**#Book-SVS** Simplified V-Springs **only \$5.99**

**Metalwork, Volumes 1 and 2 ..... #Book-MV-1 or MV-2**

Volume one is on cleaning, hardening, ageing, bluing, browning, coloring, and hardening metals. Finishing is one secret to success.

Volume two takes you through disassembly of antique arms, with hints on removing rusted screws, repairing broken castings, and how you can reshape new castings to resemble antique parts.

**#Book-MV-1** Metalwork, Volume 1 **only \$5.99**

**#Book-MV-2** Metalwork, Volume 2 **only \$5.99**

**Craft and Practice, Volumes 1 and 2 ..... #Book-CP-V1 or CP-V2**

Volume one covers lock reconversion, fitting pans, frizzens, frizzen springs, and making gun screws. Assembly of locks from "as cast" parts, essential lock geometry, and fine tuning locks is discussed.

Volume two covers the making of troublesome parts, such as forming ramrod pipes and other furniture made from sheet metal. Tapering wooden ramrods, making ramrods longer than 48", and making and mounting sling swivels is included in volume two.

**#Book-CP-V1** Craft & Practice, Volume 1 **only \$5.99**

**#Book-CP-V2** Craft & Practice, Volume 2 **only \$5.99**

**Woodwork, Volumes 1 and 2..... #Book-WV-1 or WV-2**

Volume one explains the steps in making a gun stock from a blank, setting up the parts, final shaping, and how parts dictate final shape.

Volume two discusses decoration of the completed stock, with suggestions on stains and finishes. Also, a section explains the secrets of repairing or correcting mistakes that may occur while making a new stock. All gun makers can make errors. Smart gun makers know how to fix problems and conceal corrections.

**#Book-WV-1** Woodwork, Volume 1 **only \$5.99**

**#Book-WV-2** Woodwork, Volume 2 **only \$5.99**

**Tubes and Tools ..... #Book-TAT**

This booklet discusses gun barrel work: install underlugs, sights, breech plugs, touch hole liners, attach under ribs, and learn to straighten barrels with confidence.

The second half of the book is a recommendation on which tools will be worthwhile for the gun maker, in the serious workshop.

**#Book-TAT** Tubes & Tools **only \$5.99**
