Simulated Sinew

Artificial Sinew, waxed flat lacing:

Our waxed nylon artificial sinew strongly resembles the real thing, and is ideal for primitive sewing jobs that require high strength, where a failed thread would spell trouble. Use it for sewing leather or cloth. It may be split, by hand, simply by separating the flat sinew into thirds, for fine work requiring thinner threads. Approximately 1000 ft.

- #Sinew-B** waxed nylon sinew, 60 yard bobbin **only \$ 1.79**
- #Sinew** waxed nylon sinew, 1/2 pound spool **only \$11.99**

Thin Sinew, waxed flat lacing **#Sinew-T**

This lighter weight simulated sinew is much thinner than the regular weight, and is designed for use on finer, more delicate projects. It also saves time, since you no longer have to split the heavier sinew for sewing, yet it is very strong. Approximately 3000 feet.
