#RP-Type-C-F-6-I ramrod pipe, iron, 3/8", forward **only \$ 10.99**

Pre-inlet stocks for French Type 'C' fusils:

The early French Type 'C' trade gun was decorated with elegant finials and open work. Our Type 'C' stock is fully shaped, pre-inlet for our lock, lock bolts, 42" barrel, 3/8" ramrod hole drilled full depth, underlugs, trigger, triggerplate, triggerguard, ramrod pipes, and buttplate. You must hand cut any square corners, and scrape away any candle soot or inlet black, where inletting is too tight, until it fits.

Our shaped and pre-inlet stock will allow even the novice to build a fine replica of an early French trade gun. We offer our Type 'C' stock in black walnut or plain maple. Original French fusils were stocked in a variety of woods. American black walnut has a more open grain pores than original French walnut, and requires more finish to seal or fill the pores. We recommend Laurel Mountain Forge Sealer, to fill the pores, after you stain the stock fairly dark, before applying our Permalyn finish. Maple has closed pores, a fine choice for a Type 'C' fusil stock when finished as walnut.

Beware of the temptation to use figured wood on a French trade fusil. Apparently original antique French guns were never stocked in figured wood. Military gun makers selected straight clear grain, to make the strongest stocks. Highly figured wood is becoming widely recognized as an incorrect choice for trade guns and military guns, today.

#STK-Type-C-M1 stock, Type 'C', hard maple **only \$230.00**

#STK-Type-C-W1 stock, Type 'C', black walnut **only \$299.00**

Track's octagon-to-round 42" barrel, by Colerain:

Our 20 gauge 42 inch barrel is .615 caliber, smooth bored, 1" octagon at the breech. In-the-white, our barrel is threaded 3/4-16 for our breech plug with .550" length thread journal. We can supply the plug, or install it at extra cost. Our gunsmith can solder the lugs and front sight, on special order. Cylinder bored with no choke, use lead or bismuth shot, or round balls in this highly polished bore. Use a .600" ball with a .010" patch, or a .610" ball in a paper cartridge.

Track's octagon-to-round barrel is also available in 24 gauge smooth-bore, .54 caliber rifled, or .58 caliber rifled, all 42" length.

#BBL-20-42 barrel, 42" octagon-to-round, 20 ga **\$179.00**

#BBL-24-42 barrel, 42" octagon-to-round, 24 ga **\$179.00**

#BBL-28-42 barrel, 42" octagon-to-round, 28 ga **\$179.00**

#BBL-54-42 barrel, 42" octagon-to-round, .54 rifled **\$189.00**

#BBL-58-42 barrel, 42" octagon-to-round, .58 rifled **\$189.00**

We can install the plug, front sight and underlugs, at extra cost. Allow 5 to 7 days shop time. Items cut per your order are not returnable.

#Plug-ST-16-3-R breech plug, 3/4-16, straight tang **\$ 9.99**

#Labor-BP install breech plug, a perfect fit **\$ 25.00**

#Labor-US solder lug or sight, each **\$ 20.00**
