Jim Bridger's Hawken rifle stocks:

Pre-inlet and shaped on Allen's Patent five axis precision pantograph. Green River Rifle Works made our master pattern. Michael Hayes refined and perfected our working pattern. We offer stocks cut for a heavy 1-1/8" straight octagon barrel, or a lighter 1-1/8" tapered octagon barrel. Pre-inlet for Jim Bridger's Hawken lock, trigger, breech plug, tang, buttplate, entry pipe, lock bolt inlay, oval key inlays, and toeplate. Key ways, lock and tang bolt holes are indicated. The forend is about 15" length. Trigger reach is 13-3/4", drop is 4" from the line of sights, butt end is 5 x 1-1/4", cut for our wax cast Jim Bridger's Hawken buttplate. The hole for a 7/16" ramrod is drilled full depth, not milled.
