

# Siler large cap lock kits right and left

**#Lock-SL-CK-RH**  
Siler's large right cap lock kit  
**\$69.99**

**Siler's large cap lock kits, right & left.....#Lock-SL-CK-RH or LH**

Siler's large cap locks are pre-inlet into our most popular stocks. Designed to fit any 13/16" to 1-1/8" barrel with 1/2" drum. Do not deepen the drum notch to accept a plug bolster. It supports the mainspring.

Siler's large right and left cap lock kits require the same tools and skills as described for our Siler flint kits. We stock every spare part. With careful work, you can build a highly tuned lock!

**#Lock-SL-CK-RH** Siler cap kit, large, right **only \$69.99**  
**#Lock-SL-CK-LH** Siler cap kit, large, left **only \$69.99**

**Spare parts for Siler's large cap kit, right.....#Lock-SL-CK-RH**

Springs are tempered. "As cast" parts must be drilled, polished, hardened and tempered. Siler kit instructions are available.

**Simplified V-Springs ..... #Book-SVS**

This booklet explains the secrets of making V-springs the easy way. Buying the right steel, with wide temper tolerance, will allow you to make a good springs despite home tempering.

Learn to shape mainsprings, frizzed springs and sear springs. Mr. Ravenshear proves that broken V-springs can be altered, repaired, welded and salvaged.

**#Book-SVS** Simplified V-Springs **only \$5.99**
