Back Action right and left locks......................... #Lock-LR-700 or 800
Called “back action” because the mainspring hangs behind the
tumbler, this lock was popular on percussion guns made in St. Louis,
New York, California, Ohio, England and Belgium. Swivel breech double
rifles require a back action lock mechanism. This lock can be modified
for flint use. Side-by-side or over-and-under double rifles, shotguns,
and combination guns often use back action locks.

Makers of bench rifles, target rifles, slug guns and Sniper’s rifles of
the 1840 to 1880 preferred these long thin locks.

These nice locks feature a fly detent, for use with set triggers. The
mainspring and stirrup result in fast lock time, making this lock a good
choice for the serious target shooter.

The hammer has a 1.625” throw for use with barrels from 13/16”
up to 1-1/4”. Our left back action lock exactly matches our right lock.

Notched at the tail to hook under a wood screw, we recommend that
you use our #6 x 1/2” screw, set permanently in the lock mortise.

Faced with the task of repairing rotted out right and left locks on a
Belgian double shotgun that is otherwise serviceable, it may be easier
to simply trim these lock plates to fit the existing mortise, or inlet these
new locks. Retrofitting new locks is a gunsmiting challenge since
hammers may need to be bent, shortened, stretched, or you may refit
your original hammers.

Back Action percussion locks
left or right

Schuetzen percussion lock, right hand..................#Lock-LR-575
A classic late Germanic style percussion lock, with smooth curves
all around the lock plate. The front of the plate is long enough to allow
using two lock bolts, although one lock bolt is more typical in this late
percussion era. The hammer has a long throw to reach the nipple on
nearly any hooked or solid patent breech. The highly styled gargoylie
head hammer is correct for schuetzen rifles. L&R’s best internal parts
feature a fly detent for set trigger, late percussion style stirrup link with
integral pins, and a strong fast mainspring. Select a hooked buttplate
and fancy triggerguard with finger spurs, and scratch build a rifle for
the NMLRA Schuetzen matches.

#Lock-LR-700 back action only $92.00
#Lock-LR-800 back action left only $92.00
