## Rear Sights

### Allentown, Lehigh rear sight ............ #RS-AM-14, 16, or 18
Wax cast steel, not polished, this traditional style sight is offered in three sizes suitable for a long rifle with a 7/8", 1", or 1-1/8" barrel. The Lehigh Valley sight is a excellent choice for a Rupp, or Allentown longrifle. Made in the U. S. A. Install up to .050" deep, the dovetail is about .500" long and .526" wide for 7/8", .578" for 1", .620" for 1-1/8".

- #RS-AM-14  Allentown rear sight for up to 7/8" only $7.99
- #RS-AM-16  Allentown rear sight for up to 1" only $7.99
- #RS-AM-18  Allentown rear sight for 1-1/8" only $7.99

### Large Pennsylvania sight ...................... #RS-PA-13-L
Wax cast steel, not polished, this rear sight has a long base. This sight may easily be shortened. This larger sight is made for use on a longrifle with a hefty 15/16" or 1" octagon barrel. The dovetail is about .850" long, as cast, and the base is .560" wide. Made in the U. S. A.

- #RS-PA-13-L  Large Pennsylvania sight only $7.99

### Small Pennsylvania sight...................... #RS-FG-14 or 16
Wax cast steel, not polished, this rear sight has a long base often found on early rifles. This small version is made for a longrifle with a 13/16" or 7/8" octagon barrel. The larger version for barrels 15/16" and 1". The sight has a small notch centered on the blade. Made in the U. S. A., dovetail to a depth of .050" deep. Base is about .685" long. .530" wide for 7/8" and .585" for 1" Blade will stand .250" above the plane of the barrel.

- #RS-FG-14  Small rear sight for up to 7/8" only $7.99
- #RS-FG-16  Small rear sight for up to 1" only $7.99

### Semi-buckhorn rear sight ..................... #RS-SB1-14 or 16
Wax cast steel, not polished, this traditional style sight is offered in two sizes, suitable for a long rifle up to a 7/8" octagon barrel or a larger size, up to 1" octagon barrel. This high sight reduces heat mirage, and tilt minimizes glare. Sight has a notch cast in the blade, which can easily be enlarged if necessary. Made in the U. S. A., dovetail to a depth of .050", dovetail is .382" long, and .530" wide for 7/8" and .565" for 1".

- #RS-SB1-14  Semi-buckhorn rear sight up to 7/8" only $7.99
- #RS-SB1-16  Semi-buckhorn rear sight up to 1" only $7.99

### Tall Pennsylvania sight ....................... #RS-FG-14 or 16-T
This sight has a long base similar our other #RS-FG-14. However this sight is .425" tall from the top of the sighting surface, to allow sight-in with a tall front sight, and to reduce mirage and heat glare from the top flat, during shooting matches. A .755" dovetail is about .540" wide for the 7/8" and .590" for the 1". Dovetail to a depth of .050", or fit to a raised dovetail.

- #RS-FG-14-T  Small rear sight for up to 7/8" only $7.99
- #RS-FG-16-T  Small rear sight for up to 1" only $7.99

### Slim Kentucky longrifle rear sight ........ #RS-SK-14 or 16
Wax cast steel, not polished, this 3/8" high blade is tilted backward, to reduce glare. Made in two sizes, for longrifles with a 13/16" or 7/8" and 15/16" or 1" octagon barrels. The dovetail is approximately .756" long, .543" wide on the 7/8" sight and .747" long and base .597" wide on the 1" rear sight. Dovetail depth of .050", or works well in a raised dovetail.

- #RS-SK-14  Small rear sight for up to 7/8" only $7.99
- #RS-SK-16  Small rear sight for up to 1" only $7.99

### H.E. Leman Semi-buckhorn rear sight .......... #RS-HL-16
Wax cast steel, not polished, this sight is a reproduction of those found on H.E. Leman trade rifles. This sight is suitable for a long rifle with a 15/16", or 1" octagon barrel. This high sight reduces heat mirage, and tilt minimizes glare. Sight has a notch cast in the blade, which can easily be enlarged if necessary. Dovetail to a depth of .050", dovetail is .372" long, and .563" wide with the edges chamfered as found on the antique rifles.

- #RS-HL-16  Semi-buckhorn rear sight only $7.99
