Rear Sights for longrifles

1770 Lancaster sight.............................. #RS-DRU-1
Isaac Haines style, ideal for a swamped barrel, this wax cast steel sight has concave bevels on the front three edges, and a flat top. We recommend filing a square notch for use with a blade front sight. The dovetail is about .585” long, with a .535” base about .062” deep.
#RS-DRU-1  1770 Lancaster sight  only $7.99

George Schreyer rear sight .............. #RS-SCH-14, 16, or 18
This York County rear sight is wax cast steel with attractive bevels on the front edges, and a flat top easily filed to height. The notch is indicated. The dovetail is .750” long, width .526” for 7/8” .578” for 1”, and .620” for 1-1/8”. Dovetail to .062” deep.
#RS-Sch-14  George Schreyer sight for 7/8”  only $7.99
#RS-Sch-16  George Schreyer sight for 1”  only $7.99
#RS-Sch-18  George Schreyer sight for 1-1/8”  only $7.99

Skirted dovetail sight-------------------------- #RS-DRU-CT
This rear sight has a concealed dovetail under a front and rear skirt. It will hide a rough looking slot on a 13/16” or 7/8” octagon barrel. The dovetail is about .385” as cast, it will clean up to a standard .375” dovetail. The base is .550” wide.
#RS-DRU-CT  Skirted dovetail sight  only $7.99

Low flint longrifle sight....................... #RS-LLB-14 or 16
Original longrifles were nearly always fitted with “fine” (low) sights, in the mistaken belief that the low sights reduced sighting error. Too low for good target work, use it to restore or replicate an original antique rifle. Wax cast with a 1” dovetail, about .535” wide for use on a 13/16 to 7/8” or .585” wide on a 15/16” or 1” barrel. Dovetail to a depth of .050”, the blade will stand .23” above the plane of the barrel.
#RS-LLB-14  Low rise rear sight for 7/8”  only $7.99
#RS-LLB-16  Low rise rear sight for 1”  only $7.99

Poor Boy rear sight............................ #RS-TOW-1
Wax cast steel, this sight is made in the U.S.A. from patterns made by the famous rifle maker, Mr. Louis Smith of Johnson City, Tennessee. Semi-buckhorn style, with a flat surface over the notch area. The dovetail is .640” wide, .630” long, with a simple thumbnail finial.
#RS-TOW-1  Poor Boy rear sight  only $7.99

Flint longrifle rear sight......................... #RS-LB-14 or 16
A crisp wax casting, not polished, this steel rear sight has an extra long base that may be trimmed to fit an over-sized dovetail, up to 1” length. The sight blade tilt minimizes mirage and glare. The dovetail is 1” long by .539” wide for 7/8” and .590” for 1.” Dovetail to a depth of .050”. File the front edge to fit your slot.
#RS-LB-14  Long base sight for 7/8”  only $7.99
#RS-LB-16  Long base sight for 1”  only $7.99
