

# Sights for Long Range Sharps Rifles & Target Rifles

**Soule Long Range Vernier Tang Sight for 1874 Sharps and similar rifles, by Davide Pedersoli:**

Pedersoli's Soule long range tang sight has three mounting holes in the base, to fit most popular black powder rifles. The front hole is elongated to fit other brands of rifles which may have different hole spacing.

Supplied with four sight mounting screws, two are special 10-28 Sharps thread used on Sharps rifles, antique or replicas by C. Sharps, Shiloh, Garrett, Pedersoli, and others. Two metric 4mm screws fit other popular rifles by Pedersoli, EMF, Pedretti, IAB, Uberti, SILE, Powder River, and many other replica rifles made in Italy.

Over 7" tall, this sight has 4" of elevation, for extreme long range.

**Knurled Globe Sight, with 12 inserts.....#FS-Sharps-1**

This clever globe front sight is slotted to accept Pedersoli Sharps sight inserts, but does not use a retaining spring. Loosen the knurled rear ring one turn, to insert one of the twelve sight inserts, included.

Made in Italy by Davide Pedersoli, blued steel, the .382" dovetail base is slightly larger than a .375" standard dovetail, for a snug fit. It will not fit the larger slots on Shiloh, C. Sharps, or antique Sharps rifles. The oversize .382" dovetail base is .083" deep, .651" wide, with a direction arrow on the underside, to ease installation. Ring to rear.

**Sharps Globe Front Sight, with 18 inserts.....#FS-Sharps-2**

This blued steel globe front sight is slotted to accept Pedersoli Sharps sight inserts. Rotate the upper retaining spring to insert one of eighteen sight inserts, included with each sight.

Made in Italy, by Pedersoli, the .382" dovetail base is slightly larger than a 3/8" standard dovetail, for a snug fit. It will not fit the larger .438" original Sharps, or .450" Shiloh or 1874 C. Sharps rifle. It will fit the 1875 C. Sharps, High Wall, Uberti rifles, and others with a 3/8" slot. The oversize .382" dovetail is .098" deep, .575" wide at center.
