Early pistol trigger and plate ............... #TR-Pist-C-TP
A good choice for late 18th or 19th century pistols, the 
long curled trigger plate can be trimmed to fit many different stock profiles.
The trigger plate is .475" wide, and tapers to .300" at each end.
Plate length is 3-7/8". The sides taper, sometimes called "draft", 
to simplify inletting. The curled trigger is about .330" wide, with 
a scroll back. Not too tall, this trigger allows a slim and graceful wrist.
