Tulle fusil-de-chasse trigger and plate:

Made with an integral pivot point in the plate, the high pivot gives a light trigger pull. The round boss may be drilled and tapped for a tang screw from above. The slot is .095" wide. The trigger is about .095" wide, and must be lightly polished before assembly. Pivot point is clearly marked in this steel wax casting.

- #TR-Tulle-1-T trigger, wax cast steel **only \$7.99**
- #TR-Tulle-1-P trigger plate, wax cast steel **only \$9.99**

Tulle fusil-de-chasse trigger and plate:

This is a French style trigger and plate, a correct copy from our original Tulle fusil-de-chasse. A simple design, suitable for use on pistols, longrifles, and fowling guns that require a single trigger.

This trigger is designed to be mounted directly to the stock, for best leverage. Use our 3/32" hardened steel dowel pin.

- #TR-Tulle-2-T trigger only **only \$6.99**
- #TR-Tulle-2-P trigger plate, slotted **only \$7.99**

Trigger plate, U.S. Model 1803 "Harper's Ferry" rifle:

Copied from original trigger plates, the first variation is longer, for 1803 through 1806 dated rifles.

- #TR-1803-P 1803 - 1806 trigger plate, brass **only \$9.99**

Trigger for U. S. Model 1803 "Harper's Ferry" rifle:

Wax cast steel copies of original antique triggers. Triggers from 1803 through 1806 rifles have only 1/3 web behind the trigger, while triggers from 1814 through 1819 have a full 2/3 web behind trigger.

- #TR-1803-T trigger, U. S. Model 1803, short web **only \$6.99**

Brown Bess Musket trigger plate:

Used on almost every variation of 1728, 1742, 1746, & 1755. Directly 1746 Brown Bess musket trigger only. Slot is offset slight to right, as found on the original.

Brown Bess Musket trigger:

Molded directly from an original First Model Brown Bess trigger, use our trigger and plate on a military musket or a fowling gun.

- #TR-Bess-46-T trigger for Brown Bess, steel **only \$6.99**

#TR-NW-3-T
trigger
\$7.99

Trigger for North West Trade Gun:

This trigger design is commonly found on 1840 and earlier trade guns. The trigger can be pinned directly to the wood, the correct early technique, which generally produces the best geometry for easy trigger release. This trigger is about .105" thick, as cast. We like the shape of this trigger for Northwest Trade Guns, early fusils, and similar flint fowling guns, longrifles, and muskets. Wax cast steel.

- #TR-NW-3-T trigger only, steel **only \$7.99**

#TR-G-296-P
trigger plate
\$13.99

#TR-G-296-T
trigger
\$13.99

French Military Musket trigger and plate:

Charleville's musket trigger and plate was copied by military armorers, worldwide. Found on American, English, French and other muskets, from 1760 through 1860. You may use the plate or pin it directly to the wood, as original. Wax cast steel.

- #TR-G-296-T trigger only **only \$13.99**
- #TR-G-296-P trigger plate, slotted **only \$13.99**

Trigger plate for French Type 'C' and Type 'D' trade fusils:

Made for the French *Type C* and *Type D* trade fusils, this wax cast brass trigger plate has a double thickness round lug for the tang screw cast into the back surface. Slot is square and crisp.

- #TR-Fusil-P trigger plate, brass **only \$10.99**

Trigger for French Type 'C' and 'D' trade fusil:

Notice the curled end. Early *Type C* fusils were fancier than later *Type D* fusils. This curled trigger will be pretty on an early flint longrifle, or a smooth bore flint fowling gun.

- #TR-Fusil-C-T trigger only, for 'C', with curl **only \$ 6.99**
- #TR-Fusil-D-T trigger only, for 'D' fusil **only \$ 6.99**
