Decorative Powder Horn  
10 to 11" arc  
**\$12.99**

**Powder horn, antiqued patina, distressed aged finish, a decorator .....#Horn-D**  
**Our best value in a primitive American antiqued powder horn for display!**

This economical powder horn is about 10" to 11" arc length, with a decoratively carved neck and antiqued worn distressed finish, and marks. The turned wooden butt plug has a knob for attaching a shoulder strap and is secured by small domed brass tacks. A turned wooden stopper is included.

Our best value as decorative horns, they may have small interior cavities, or the spout hole may not be drilled through to the inside cavity. If you are skilled with tools, you can complete that hole.

If you are seek a powder horn for display, this is a very attractive primitive American horn.

**#Horn-D** decorative powder horn, 10 to 11", antiqued patina **only \$12.99**

## Are those "real" cow horns?

Yes, our powder horns are hand made, scraped, cleaned, polished, filed, carved, and fitted with wooden stopper and butt plugs. We use a real cow or bison horn, real wood, real brass tacks or traditional iron cut nails, real leather. No plastic or nylon. No two alike.

We've never actually seen a *plastic* powder horn, but our customers frequently ask this question.

Perhaps our prices seem too good to be true?

## Pioneer Powder Horn .....#Horn-PH

Our Pioneer powder horn is white or mottled colors, with a carved neck. The domed wooden butt plug is retained by small domed brass tacks, with a staple for attaching your shoulder strap. A latigo leather shoulder strap and a wooden stopper are included. This full size powder horn has 11" to 14" arc.

**#Horn-PH** Pioneer powder horn **only \$59.99**
