Cappers & Fancy Gun Hooks

Cap Magazines make priming easy, on the line, or in the field. We offer brass cappers in several styles and prices. Choose carefully. No single capper fits every cap or every gun. We offer these hints:

**Straight Pistol or Musket Capper**
Narrow spring fingers allow this brass capper to reach into tight spaces to place caps on most replica Colt revolvers, Remington revolvers, most rifles, shotguns, and many modern in-line actions. Our pistol capper accepts popular #10 or #11 caps, and holds them in blue steel spring fingers, ready for quick use. A gentle nudge of the thumb knob presents a cap. Spring fingers hold it until ready. Made in the U.S.A.

Our musket capper dispenses big flanged military "top hat" caps.

- **#Capper-P** straight, brass, for No. 11 caps only $9.99
- **#Capper-M** capper, straight, brass, for Musket caps only $14.59

**Fancy Revolver Capper**
This snail shaped capper is made with a long narrow neck to reach into Colt cylinders, and some in-line rifles. It works well with the Walker, Dragoon, Army, Navy, Pocket, Police, Confederate, and Rogers & Spencer. Not recommended for Remington, Whitney, Spiller & Burr, or other revolvers with shrouded nipple pockets. Use CCI or RWS caps.

- **#Capper-Rev-B** capper, for revolvers, brass only $22.50
- **#Capper-Rev-S** capper, for revolvers, nickel only $25.99

**Rifleman's Fancy Capper**
This clever cap dispenser was designed in the late percussion era. Shown in *The Muzzle Loading Caplock Rifle*, by Ned Roberts, this replica is about 3-1/2" long. A slotted arm rotates to allow the hinged lid open. When filled, gravity draws caps to the lower end, but keeps them dry and protected, out of sight. Pressing the side lever rocks a spring cam arm inside, presenting one cap at the window. The cap is held in place until you seat it on the nipple. CCI or RWS #11 caps fit best.

- **#Capper-TC-B** capper, fancy rifleman's, brass only $22.50
- **#Capper-TC-S** capper, fancy rifleman's, nickel only $25.99
