

Ox-Yoke® dry felt wads

Ox-Yoke® lubed felt wads

Ox-Yoke®Wonder Wads, for muzzleloading shotguns:

A high density, 100% wool felt wad, lubricated with All Day Wonder Lube, that will take the place of the over powder and cushion wad.

These give a dense shot pattern, and increased range, without the need for wet fiber wad. Wool felt wads load easily in a full choke barrel, and they will return to original size and shape after passing through a tight choke. A proper gas seal is maintained to give you the full benefit of your load. More costly than fiber, very convenient.

- #Ox-Wad-10-W wads, wool, 10 gauge, 100 pk **only \$13.99**
- #Ox-Wad-12-W wads, wool, 12 gauge, 100 pk **only \$11.49**
- #Ox-Wad-20-W wads, wool, 20 gauge, 100 pk **only \$11.49**
- #Ox-Wad-54-W wads, wool, 28 gauge, 100 pk **only \$ 7.99**

Ox-Yoke®Wonder Wads, for revolvers and cartridges:

Wool felt wads are dry, or lubricated with Wonder Lube. When used in a percussion revolver, the wad is used over the powder, under the round lead ball. No messy grease is needed with Wonder Wads. They safely seal each chamber, and prevent chain-firing. Black powder cartridge reloaders have discovered that dry wads reduce leading and prevent melting the base of the bullet. We don't recommend wonder lube in cartridges. Lube can wet the powder charge in cartridge cases, over time.

Track's Best BORE CLEAN

black powder solvent removes Black Powder, Pyrodex, and Wonder Lube 1000 fouling.

To prevent rust, clean your bore at the end of each day's use.

Track's Best Bore Clean solvent is nonabrasive, contains no soap, and will not soften wood finishes. Use it as a patch lube to help keep your bore clean while target shooting. Never lubricate hunting patches with our solvent! Penetrating agents may migrate to the powder and dampen your charge. Our big 8 ounce plastic bottle has a dispenser spout.

- #Bore-Clean Bore Clean, with spout **only \$ 3.79**
- #Bore-Clean-X Bore Clean, case of 25 bottles **only \$65.99**
