Ox-Yoke® Wonder Wads, for muzzleloading shotguns:
A high density, 100% wool felt wad, lubricated with All Day Wonder Lube, that will take the place of the over powder and cushion wad.

Thesegive a dense shot pattern, and increased range, without the need for wet fiber wad. Wool felt wads load easily in a full choke barrel, and they will return to original size and shape after passing through a tight choke. A proper gas seal is maintained to give you the full benefit of your load. More costly than fiber, very convenient.

*Ox-Wad-10-W* wads, wool, 10 gauge, 100 pk only $13.99
*Ox-Wad-12-W* wads, wool, 12 gauge, 100 pk only $11.49
*Ox-Wad-20-W* wads, wool, 20 gauge, 100 pk only $11.49
*Ox-Wad-54-W* wads, wool, 28 gauge, 100 pk only $7.99

Ox-Yoke® Wonder Wads, for revolvers and cartridges:
Wool felt wads are dry, or lubricated with Wonder Lube. When used in a percussion revolver, the wad is used over the powder, under the round lead ball. No messy grease is needed with Wonder Wads. They safely seal each chamber, and prevent chain-firing. Black powder cartridge reloaders have discovered that dry wads reduce leading and prevent melting the base of the bullet. We don’t recommend wonder lube in cartridges. Lube can wet the powder charge in cartridge cases, over time.
