

# Wood Stain, Sealer & Finish

## Original Oil Finish, our slow curing favorite ..... #Finish-Org

Our high quality oil base finish uses natural authentic ingredients, thinners, and volatiles to improve hardening and speed drying slightly. This is an honest oil finish, not a varnish. Minor scratches from field use will disappear with repeated applications. Slow acting, slow curing, it requires several coats, rubbed by hand, over several days. No synthetics. One of our favorites, because it is so easy to get good results, over time.

#Finish-Org Original Oil Finish, 4 oz. **only \$4.99**

## Gun Stock Sealer & Filler, by Birchwood Casey .....#BC-SF

Sealer and Filler seals out moisture and fills the pores in one easy step. Use our clear sealer and filler *AFTER* your favorite stain or seal the wood in its natural color. Penetrates grain quickly, easy to use, dries fast. Made in the U.S.A. by Birchwood Casey.

#BC-SF Sealer & Filler, clear, 2-1/2 oz. **only \$5.29**

## Gun Stock Wax, by Birchwood Casey .....#BC-PSW-39

Heavy duty weather protection for your gun. It produces a lustrous waterproof final coating, combining the beautifying properties of carnauba wax, beeswax, and silicone compounds.

#BC-PSW-39 Liquid wax, 2-1/2 fluid oz **only \$5.99**

## Tru-Oil® Gun Stock Finish .....#BC-(part number)

Birchwood Casey's famous fast drying Linseed oil varnish. Dries quickly, allowing you to apply several coats, until a satisfactory finish is achieved. Tru-Oil® has been used by gunsmiths for over 20 years. It dries to a high shine.

Polish the gloss with a rubbing compound for a satin finish.

#BC-TO-22 Tru-Oil varnish, 3 oz. liquid **only \$ 6.29**

#BC-TO-22-L Tru-Oil varnish, 8 oz. liquid **only \$10.99**

#BC-TO-11 Tru-Oil varnish, 11 oz. aerosol **only \$ 9.99**

## Rusty Walnut Gun Stock Finish..... #BC-RWS

This alcohol based "water stain", may be thinned by dilution with water or denatured alcohol (sold as shellac thinner, not rubbing alcohol) to avoid raising grain. This walnut stain is a rusty walnut color, with a reddish undertone, for a traditional appearance.

Color intensity is easily controlled by diluting the stain, or using it full strength for light colored woods.

#BC-RWS Rusty Walnut stain, 3 oz. liquid **only \$6.20**

## Walnut Stain, by Birchwood Casey ..... #BC-WS-1

This alcohol based "water stain", may be thinned with water, or use denatured alcohol to avoid raising grain. The walnut is a true brown walnut color, for a traditional look. Color intensity is easily controlled by adding water, or use it full strength on light color woods. Made in the U.S.A. by Birchwood Casey.

#BC-WS-1 Walnut, dark brown, 3 oz. **only \$6.20**

## Stock Sheen & Conditioner by Birchwood Casey #BC-CDZ

Cleans and polishes old stocks. Weatherproof ingredients protect new and old finishes. Won't finger mark like wax.

#BC-CDZ Stock Sheen, 2-1/2 oz. **only \$5.99**

## Lin-Speed Gunstock Finish .....#LIN-Speed-2

Pure linseed oil, specially refined to dry in just 2 to 6 hours to a tough, hard, easy-to-touch-up finish. So simple to use. Apply stain (if desired) and follow with finger-dunks of Lin-Speed. Smooth out with the heel of your hand and set aside to dry. First coat will "freeze" sanding whiskers for easy removal with 3/0 steel wool, ending time consuming steaming and de-whiskering. Stop working so hard at your stock finishing! Sand it well, then apply Lin-Speed, and let it dry. Our 2 fluid oz. bottle will do several stocks.

#LIN-Speed-2 Lin-Speed Gunstock Finish, 2 oz. **only \$8.95**

# Metal Finishing

## Plum Brown® Barrel Finish by Birchwood Casey #BC-PBI-5

This famous "hot brown" formula quickly produces rich authentic chocolate brown finish on steel. We use it in our shop, for touch-up, repairs, and small parts. Large surfaces (barrels) require thorough cleaning to achieve an even finish. Despite instructions, allow the brown finish to age several hours before oiling, giving the oxide time to bond to the surface. Inspect it in bright daylight. If mottled, continue application. After-rust, which may darken the finish, is normal. Poison! Avoid contact with skin.

#BC-PBI-5 Hot brown finish, 5 oz. **only \$9.99**

## Van's Gun Blue ..... #Vans-Blue

A new blue process, in easy to use liquid form. Just rub it on. The more you rub, the darker it gets. An exotic Selenium compound, even a beginner will like the results. Blue and Rust Remover won't touch this finish, since it is not an iron oxide. It is durable, and easy to use. Used as a "touch up" blue, because it reacts only with shiny steel. It will not wet or discolor blued steel. Great for touching up scratches, screws, and sights.

#Vans-Blue Touch-up blue, 4 oz. **only \$6.95**

## Blue and Rust Remover, by Birchwood Casey .... #BC-BR-1

Cold chemical compound removes old blue, brown, and surface rust. Wash that corrosive black powder fouling from your patch knife, or you'll need a lot of this stuff. Easy to use, a thick liquid.

#BC-BR-1 Blue and rust remover, 3 oz. **only \$4.99**

## Formula 44/40 Instant Gun Blue.....#Blue-44-40

Fast, easy, wipe-on and wipe-off application. The blueing procedure is simplicity itself. Clean and degrease the surface, wipe-on, immediately wipe-off and lightly oil. Great for aging copper or brass in restoration projects, too.

#Blue-44-40 Instant gun blue, 2 oz. **only \$9.99**

## Cleaner - Degreaser.....#BC-GC-113 or CD-10

Cleanliness is the secret to an even finish! Specially formulated to remove dirt, grease and oil quickly. Aerosol uses a high pressure dry spray to clean metal surfaces fast, with a quick drying time that leaves no residue. Useful to achieve a good blue or brown finish. Made in the U.S.A. by Birchwood Casey.

#BC-GC-11-3 Degreaser, 3 oz. liquid **only \$ 4.99**

#BC-CD-10 Degreaser, 10 oz. aerosol **only \$10.99**

## Perma Blue® Liquid or Paste .....#BC-PB-22 or SPB-2

Liquid gun blue, by Birchwood Casey, for quick touch-up of barrel scratches or worn spots. Perma-Blue® produces a blue black finish on steel, except stainless alloys. Always prepare the surface with degreaser before using this product. Easy, it requires repeated coats, allowing you to control how dark it becomes.

Paste gun blue works more slowly, but many users prefer the easy application and controlled action, allowing touch-ups to blend perfectly. Apply it to a cleaned surface, wait 60 seconds, and wipe. Repeat as necessary to achieve the depth of blue desired.

#BC-PB-22 Perma Blue, 3 oz. liquid **only \$ 6.99**

#BC-SPB-2 Perma Blue, 2 oz. paste **only \$ 6.99**

## Presto® Gun Blue Pen, by Birchwood Casey .....#BC-PSP

The fastest and easiest way to touch-up nicks and scratches is this simple Presto® Gun Blue Pen. Chemistry penetrates hard steel instantly, giving a durable blue-black finish that won't rub off. Use it like a marking pen for one coat coverage on non-stainless steels.

#BC-PSP Gun Blue, in a felt tip pen! **only \$6.79**

## Brass Black Metal Touch-up, .....#BC-BB-2

Originally designed for touch-up of brazed joints, on double shotguns, this liquid is a great aid to the muzzle loader who wants to darken brass or copper. Diluted, it can produce a quick dark surface on brass gun furniture, which looks great when lightly polished with rubbing compound, leaving an "old patina" effect in the corners. Use it full strength, to blacken that shiny brass front sight. Made in the U.S.A. by Birchwood Casey.

#BC-BB-2 Blacken brass, 3 oz. **only \$6.20**

## Aluminum Black Metal Finish.....#BC-PAB-17

Muzzle Loading enthusiasts can now disguise modern aluminum alloy parts and accessories, and tone them to an appropriate color with this finish. A few imported replica Hawken Rifles, Cape Gun shotguns, and very early factory finished Navy Arms double shotguns were made with "blued aluminum" parts. Now you can restore the worn finish on these guns. It works quickly. Order our Degreasing Agent to prepare the surface. By Birchwood Casey.

#BC-PAB-17 Blacken aluminum, 3 oz. **only \$7.49**

## Super Blue-Liquid, by Birchwood Casey.....#BC-R-2

An old formula liquid gun blue, in "gunsmith strength", for quick touch-up use. Use this on steel parts, screws, repairs, sight slots, etc. Easy to use. Be sure to order degreasing agent, and use it to prepare the surface before any blueing or browning effort.

#BC-R-2 Super Blue, liquid, 3 oz. **only \$7.19**
