Lee Pro Auto Disk Powder Measure #Lee-90429

Elastomer wiper and Teflon coated metal casting makes this a smooth operating measure. Will not cut powder and almost totally eliminates leakage. Large hopper with shut-off valve is attached with brass thumb nuts for the ultimate in disk changing convenience. Increased safety with positive pull-back lever. Included swivel adaptor and spring return lever with spring. Comes with a complete set of 4 disks. Each disk has six cavities, so you get 24 cavities in all. The chart included on the rear of the instruction sheet lists the capacity of each cavity with every type of powder.

#Lee-90429 Lee Pro Auto Powder Measure **only \$40.99**

Lee Auto Disk Riser #Lee-90041

Installs between the Lee Powder through expanding die and the Auto-Disk Powder Measure. Allows convenient use of other brands of dies that have extended adjusting screws and provides clearance for the Lee Safety prime.

#Lee-90041 Auto Disk Riser **only \$ 7.99**

Lee Rifle Charging Die #Lee-90194

Die is used to charge small capacity rifle cases using the Auto-Disk Powder Measure. It works the same as the pistol powder through expanding dies except it doesn't expand the case mouth. Rifle case expansion is normally done in the sizing die.

#Lee-90194 Lee Rifle Charging Die **only \$11.99**

Lee Powder Measure Kit #Lee-Measure

Fifteen powder dippers, uniformly graduated, proportioned, and marked. The slide card shows the charge in grains that each measure will dispense, for every type of powder. Handy when developing *black powder* and early smokeless cartridge rifle hand loads. Easy to use, easy to inspect.

#Lee-Measure powder dippers, set of 15, graduated **only \$10.19**

Lee Adjustable Shot Dipper #Lee-Shot-Dipper

Accurately measure lead, bismuth and steel. Telescoping cup adjustable from 7/8 to 1-7/8 oz. Calibrated for lead shot. Works perfectly for large pellet sizes. With steel, simply count out pellets or weigh and set dipper accordingly.

#Lee-Shot-Dipper shot dipper, adjustable 7/8 - 1-7/8 oz. **only \$ 3.29**

Lee Perfect Powder Measure #Lee-90058

A soft elastomer wiper strikes off the metering chamber. A nylon cone shaped drum adjusted to zero clearance. A micro meter adjuster that reads directly in cubic centimeters. Just multiply the charge in grains by the cc for one grain and you have the setting. The metering chamber is the proper size for large rifle charges and the strike off opening small enough to work well with pistol size charges to over 100 grains.

Changing Powder is easy. Rotate the hopper to shut off the flow, and the hopper can be lifted off.
#Lee-90058 Lee Perfect Powder Measure **only \$24.59**

Lee Safety Scale #Lee-Scale

Magnetically damped with approach to weight. The beam is made from tough phenolic resin. Sensitive and readable to 1/20 grain.

#Lee-Scale Lee Safety Scale **only \$23.59**

Lee Powder Funnel #Lee-Funnel

A large unbreakable funnel that fits all cases from .22 to .45 caliber. A hole in the flange permits mounting it to a bench.

We use this funnel when making black powder hand loads. We gently enlarged the hole in our funnel, using a round file, to allow black powder to quickly fill the .45-70 and Sharps cases.
#Lee-Funnel powder funnel, plastic **only \$ 2.99**
