

Lyman Reloading Dies

Lyman Precision Loading Dies:

Two Die Sets consist of a full length resizing die with decapping stem and neck expanding button, and a bullet seating die with crimp. Two die sets are the reloader's choice for loading jacketed bullets in bottleneck rifle cases.

For those who load cast bullets, we suggest the addition of a neck expander die, sold separately.

#Lyman-Die-30-30 dies, .30-30 Winchester **only \$35.99**
#Lyman-Die-32-Win dies, .32 Winchester Special **only \$35.99**

Three Die Sets. Straight wall cartridge cases require a three die set, consisting of a full length resizing die with decapping stem, a two step neck expander die, and a bullet seating die with crimp.

#Lyman-Die-25-20 dies for .25-20 Winchester **only \$46.99**
#Lyman-Die-32-20 dies for .30-20 Winchester **only \$46.99**
#Lyman-Die-38-55 dies for .38-55 Winchester **only \$46.99**
#Lyman-Die-44-40 dies for .44-40 Winchester **only \$46.99**
#Lyman-Die-45-70 dies for .45-70 Government **only \$46.99**
#Lyman-Die-50-70 dies for .50-70 Government **only \$46.99**

Carbide Pistol Three Die Sets have a carbide sizing die, that does not require case lubricant, a one piece hardened steel decapping rod, expander die, and a bullet seating die with extra seating screws for popular bullet nose shapes, and a crimp.

#Lyman-Die-38-SP carbide dies, .38 Special, .357 **only \$52.99**
#Lyman-Die-44-RU carbide dies, .44 Russian **only \$52.99**
#Lyman-Die-45-LC carbide dies, .45 Long Colt **only \$52.99**

Classic Three Die Sets for black powder rifle cartridges have standard 7/8-14 threads to fit most reloading presses. These include Lyman's popular "M" neck expander die, for cast bullets.

#Lyman-Die-40-60 dies, .40-60 Winchester **only \$52.99**
#Lyman-Die-40-65 dies, .40-65 Winchester **only \$52.99**

#Lyman-Die-45-120 dies, .45-120 3-1/4" Sharps **only \$52.99**
#Lyman-Die-50-90 dies, .50-90 Winchester **only \$52.99**
#Lyman-Die-56-50 dies, .56-50 Spencer **only \$52.99**

Sizing Dies and Top Punches

Lyman bullet sizing dies have 90° hole spacing. It is easy to lubricate bullets, even with hard lubricants. Lyman sizing dies feature a tapered mouth, and a hardened interior, insuring alignment for a perfectly cylindrical bullet. These diameters correspond to suggested sizes for popular rifle and pistol calibers. Need other sizes? See our web site.

Lyman H&I Sizing Dies fit Lyman and RCBS Luber Sizer presses:

# Lyman-Shell-(number)	shell holder only \$6.99

Black Powder Cartridge Shooter's Tip:

Loaded ammunition is frightfully expensive, today, partly due to the cost of brass. The case is the most costly part of any cartridge, and is not worn out when fired. It may be reloaded and fired 20 times or more. Hand loading is profitable, enjoyable, and easy.

The Lyman 310 tool is simple to use, and the dies listed will often load calibers not listed. We load our .44 Colt cases for the 1871 - 1872 Open Top Colt revolver, using .44 Magnum dies. The .38 Special dies will load .38 Short Colt or .38 Long Colt, and the popular .45-70 die set will quickly pay for itself in cost savings!

Lyman Black Powder Neck Sizing Dies:

Made to match the Classic Die Sets in black powder rifle calibers, you can maintain your fire formed case dimensions, and avoid resizing your costly brass cases. These dies size the neck, only. Fired cases produce better accuracy, when using the fired case in the same rifle, because the body was fire formed to a perfect fit.

#Lyman-Neck-40 .40-65, .40-70 Sharps Straight **only \$25.99**
#Lyman-Neck-45S .45-70, .45-90, .45-100 Sharps **only \$25.99**
#Lyman-Neck-45L .45-110, .45-120 Sharps **only \$25.99**

Lyman Taper Crimp Dies, for Black Powder Cartridges:

Many black powder cartridge rifle loads require compression for proper ignition. Firm neck tension helps provide compression. Taper Crimp Dies have minimum taper, allowing you to apply proper neck tension, without damaging the bullet, for best accuracy.

#Lyman-Die-40-Ta taper crimp, .40 caliber **only \$19.99**
#Lyman-Die-45S-Ta taper crimp, .45-70 to .45-100 **only \$19.99**
#Lyman-Die-45L-Ta taper crimp, .45-110, .45-120 **only \$19.99**

The IDEAL Tool

The IDEAL Reloading Tool of the Cowboy era

When Lyman introduced the original 310 tool, more than 100 years ago, it was named "The Ideal Tool" and was sold as standard equipment for the Sharps, Remington, and Winchester rifles of the era. This simple compact reloading tool can go anywhere. Hand load rifle or pistol cases, at home, at the range, or in camp.

#Lyman-310-S Lyman 310 Tool for short cases **only \$54.99**
#Lyman-310-L Lyman 310 Tool for long cases **only \$54.99**

Lyman 310 Die Sets#**Lyman-310-(caliber)**

Die sets include a neck resizing and decapping die, primer seater, neck expander die, bullet seating die, case head adaptor.

Lyman 310 Tools, for long or short cases, are sold separately.

#Lyman-310-30-30 .30-30 Winchester, for long **only \$60.99**
#Lyman-310-38-55 .38-55 Winchester, for long **only \$60.99**
#Lyman-310-38-SP .38 Special & .357, for short **only \$60.99**
#Lyman-310-44-Mag .44 Magnum & .44, for short **only \$60.99**
#Lyman-310-45-LC .45 Colt & .45 S&W, for short **only \$60.99**
